

Thank you for your ongoing support of Finger Lakes Community College. I am writing to encourage you to continue your support of the College by voting yes on the proposed comprehensive building and renovation project. The project which addresses a range of facility needs is critically important to the future of FLCC.

Finger Lakes Community College truly educates the local workforce. More than 10,000 FLCC graduates live and work in the Finger Lakes/ Rochester area. Everywhere you go – park and recreation areas, hospitals, greenhouses, retail business, or offices – you run into FLCC graduates. FLCC graduates make the Finger Lakes a better place to work, live and grow; they are our family members, friends, neighbors and co-workers.

For Finger Lakes Community College to be a dynamic regional learning resource, central to the cultural and economic vitality of the area, it must have the facilities and technology to meet student and employer needs and promote learning. The proposed project focuses on modernizing classroom learning environments and expanding classroom space and laboratories to support growing academic programs. The new and expanded campus centers will provide the same opportunities to students that are place-bound.

I urge you to VOTE YES in support of the comprehensive building and renovation project for Finger Lakes Community College.
